Introduction

Après-Cyber Slopes Summit Audience

CISOs, AI researchers,
Security Leaders, Engineers

Après-Cyber Slopes Summit is a high-impact conference at the forefront of cybersecurity and artificial intelligence, held February 25–27, 2026, in stunning Park City, Utah.

The summit convenes CISOs, technology executives, AI researchers, and senior security professionals for two days of **cutting-edge** insights, **real-world** case studies, and strategic networking—all centered on the rapidly evolving intersection of **AI and cybersecurity**.

- With a focus on practical applications, emerging threats, and **collaborative** innovation, Après-Cyber empowers security leaders to build resilient, forward-looking organizations prepared to navigate the future of digital risk.

About Apres-Cyber Slopes Summit

Après-Cyber Slopes Summit is where cybersecurity and AI leaders come together to **exchange ideas, forge partnerships, and explore the future of digital defense.**

Held in Park City, Utah, this invite-style event fosters meaningful conversations in a relaxed, high-trust environment—on and off the slopes.

Who Attends:

- CISOs, CTOs, VPs of Security
- AI Researchers & Security Engineers
- Founders, Investors, and Tech Strategists

What to Expect:

- Executive-level networking
- Real-world insights & collaborative sessions
- Fireside chats, case studies, and social gatherings

A curated experience designed for depth—not scale

Innovative and
Collaborative Event
